36 GRADUATE AT FALL CONVOCATION

Largest Number of Students Ever Presented With Degrees in Fall in History of University.

A record number of students graduated at the fall convocation held Thursday, October 28, in the chapel at Lisner Hall, 2023 G Street Northwest. Never in the history of the institution has a fall convocation been a more complete success. Students from almost every section of the country were presented with degrees. The invocation was made by Prof. Richardson and the degrees were presented by the Deans of the various departments.

Dean Wilbur presented the degree of bachelor of arts to the following graduates of Columbian College: John K. Butkiewicz, District of Columbia; Oliver Eugene Burton, West Virginia; Montgomery M. McConkey, Minnesota; Doris McKnight, District of Columbia; Frances Lucile McMillan, Tennessee; George F. Moulton, Illinois; Charles Edward Royer, Pennsylvania; Richard L. Ryan, District of Columbia; Elizabeth Katherine Sandborn, Kansas; Eugene Scott Burroughs, Maryland; John Sacke Gams, (Continued on page five.)

FRESHMAN LAW CLASS HOLDS PEPPY ELECTION

Unusual Enthusiasm Prevails at Organization Meeting; New Officers Promise Big Year for Class.

The freshman class turned out in goodly numbers Monday night and elected the following officers: W. A. Hunter, president; F. L. Hurley, vice president; Elizabeth Foot, secretary; R. I. Wisheart, treasurer; and H. R. Hawley, sergeant at arms.

The meeting was called to order by Mr. Newell Ellison, under authority of the Law School Senate, who presided over the meeting. Never before in the history of the University has so much voluminous oratory been manifested in such a short time. Mr. W. A. Zimmerman, of Pennsylvania, especially waxed eloquent in his nominating speech and very often reached the sublime. Numerous other orators thrilled the audience.

Two of the class officers come from other universities. Mr. Hunter, the newly elected president, being a graduate of the University of Chicago and Mr. Hawley was a student at one of the western universities. Mr. Hunter, who was also an officer in the Royal Flying Corps, has some very progressive ideas about class organizations. He thinks that a successful organization depends not so much on the class officers as upon every individual member. He believes that everybody should be pulling together to make the organization a good one and the University a greater one. It is intention to know every individual member of the class personally if possible.

While one might think all the enthusiasm in school centered on Mr. Hunter to talk to him it was found that the other class officers were equally enthusiastic. Mr. Hurley declaring that he would be "one of the hundred" men to sign up an additional student activities blank. Truly it seems there is a superabundance of "pep" in the freshman law class. If enthusiastic officers, a good turnout of members and unlimited enthusiasm mean anything it appears that the first-year class will have a very successful year.

COLUMBIAN SENIORS ORGANIZE AND ELECT

The Senior Class of Columbian College turned out in full force to elect officers. The election took place in the assembly room at 2023 G Street Wednesday night, November 3.

The spirit shown throughout gives promise of a most successful year. The class, which has always had splendid cooperation, intends to put across big things for the University in its Centennial Celebration. The meeting was presided over by last year's president, Robert W. Anderson, who gave an inspiring talk on class activities. The officers elected were Carl Shea, president; Martha Waring, vice president; Russell I. Whyte, treasurer; Clarence Godfrey, secretary, and Margaret Smith, sergeant at arms.

TWO G. W. SORORITIES ADOPT A NEW SYSTEM

Pi Beta Phi and Phi Mu to Use Novel Method of Preferential Bidding Eliminating Difficulties

Two sororities at George Washington University—Pi Beta Phi and Phi Mu—have adopted the system of preferential bidding. This system of bidding, although new at George Washington, has been used with considerable success at many other universities throughout the country. Preferential bidding is far superior to the ordinary method in use at the University. It reduces to a minimum the friction which may arise over bids and is a protection both to the sorority and to the girls to whom bids are given.

Preferential bidding means exactly what it says, that the girls bidden may have their preference where they have had more than one bid, and without offending by their choice. The system is as follows: Each sorority at the University makes out a list of all the girls to whom they wish to give bids and sends the list to Bryan Morse, Director of Student Activities. A list is then made of the girls whose names appear on any of the Sorority lists and each one is notified that she has been bid. The girls thus notified then send in to Bryan Morse a statement of their successive choices, which is to say, which sorority they prefer as first and second choices. Bryan Morse then notifies the girls which sorority they have been bidden to and when and where to report in order to complete arrangements. If a girl receives more than one bid she is notified only of having received a bid from her first choice and does not know that she has received more than one bid.

This system of preferential bidding already has been put into operation and it is believed the success that will attend it will cause the other sororities at the University to adopt the same system. Results of the bidding will be ready for publication at an early date.

PRES. OF JUNIOR CLASS APPOINTS COMMITTEES

Columbian College Juniors Are Planning To Make G. W. Centennial a Notable Year.

Robert W. Pulliam, president of the Junior C. C. class, has announced the personnel and duties of the various class committees for the year 1920-21. In order to make this, the Centennial year, notable by the activities of the junior class, work has been started and a comprehensive program of social and constructive activity arranged. These committees which have appointed constitute the standing committees for the year and will form a large part of the membership of the Junior Prom Committee, according to Mr. Pulliam.

The social committee will have charge of all social activities of the class except the Junior Prom; the finance committee will have charge of all finances, including the collection of class dues and the financing of the social affairs; the publicity committee will have charge of all publicity for the class and will notify members of meetings and other activities. An executive committee, which includes, among others, the officers of the class and the committee chairmen, has also been appointed.

It is the desire of the publicity committee to obtain the names, addresses and telephone numbers of all members of the class. Juniors are requested to send such information, addressed to the publicity committee of the junior class in care The Hatchet office.

The personnel of the committees is as follows: Social, W. W. Peterson (chairman), Lawrence Hollis (vice chairman), Margaret Ayers, Phoebe Gates, John D. Glass, Ione Kitchin, Gladys Phoebe, Charles Schoffstall, George Sheriff, Grace Wormersley; finance, George Bowen (chairman), John R. Mason (vice chairman), Myrtle Alcine, Rosalie Field, W. E. Reese, W. V. Southwick; publicity, J. Foster Hagan (chairman), Edward L. Shauler (vice chairman), Elizabeth Earnest, Helen Hadden and Lillian Smith.

SPHINX GIVES SUPPER.

Sphinx Honor Society will give a supper to the Engineers on Wednesday, November 10.

BUFF AND BLUE TO PLAY W. VA. WESLEYAN

G. W. Eleven Will Meet Formidable W. Va. Team On Its Home Lot—Several Shifts in Line-Up.

George Washington's crippled football team is in Buchanan, W. Va., Saturday, playing the strong West Virginia Wesleyan University eleven. The team is going out with the idea of getting as much practical football experience out of the game as possible, without further injuries to players.

There is no gainsaying the fact that the schedule this season is one of the most difficult that has ever been attempted by a South Atlantic football eleven.

With such teams as West Virginia, West Virginia Wesleyan, Bethany, Fordham and the Navy contemplated in the first year of football the proposition was almost staggering. That the men have stuck through the season is a tribute to the University and to themselves.

It is an undisputed fact that the football team is going to try to get out of the Wesleyan contest with as little damage as possible. A good many players will be taken on the trip and practically every one will be used in the effort to save up the team for the Fordham contest on November 13 and the C. U. engagement on Thanksgiving Day.

Several shifts are contemplated in the team. It is expected that Walter, the big freshman, will be shifted to the backfield along with Sandys. Daily and McAlister or Richmond will play out the string at Buchanan.

Springston, Kay and McAlister, along with John and Paul Loehler, will be nursed along wherever possible to save them for the big Catholic University game.

There is still hope that the squad will be augmented by the presence of several first-class football players who are in the University but who have not found time as yet to come out for practice. A hurry call will be issued just before the Navy game, with the idea of getting as much support as is possible for the last battle of the season.

In this week's game George Washington can hope for little more than a good beating. West Virginia Wesleyan possesses a team which has given a good account of itself and one which is rated even higher than Bethany.

The following men are taking the trip to West Virginia Wesleyan: Hawley, Sandys, Gronna, Manson, Nilsson, Hume, John Loehler, Paul Loehler, Springston, Johnson, Richmond, Walter, Moyle, Daily, Hughes, Barr, Jones, Mulligan, McAlister, Mount and Vidmer.

FOOTBALL HOP.

The Student Council will hold an informal dance on Friday evening, November 19, at the Crystal Room of the New Ebbitt. This is given to raise funds for the necessary expenditures that falls on the council, such as the cost of publishing the handbook, the letters, numerals for the teams, etc. Therefore it behooves every loyal student to support this dance if possible. Tickets are \$2 a couple and will be on sale in a few days by all members of the council.

Sophs Challenge Freshmen to Scrap

Sophomores Are Planning a Big Surprise for Frosh—Rumors That the Freshmen May Have To Submit To Rules Similar To Those Used In Other Colleges.

"The Sophomores hereby challenge the Freshmen of the University to a scrap between the two classes." This statement from Joe Garnett, President of the Sophomore class, set a new precedent in George Washington University as heretofore the Freshman class has been the one to challenge. President Garnett said that since the Freshmen as a result of their past victories are becoming obstreperous, the Sophs are determined to make them realize the importance and power of the Sophomore and the relative unimportance and insignificance of the green Freshman.

Garnett stated in addition that the Sophomores are confident of an easy victory, as the Frosh seem to be very green and lacking in spirit. It is rumored in this connection that a set of hazing rules has been drawn up and Freshman caps ordered. While this is not official, it was said by Sophomores who have high offices in their class that the Freshmen will be forced to abide by these rules and must wear the caps at all times in certain territories to be designated.

President Garnett's statement was corroborated most emphatically by other Sophs, who said "It is practically impossible for the Freshmen to repeat their victory of last year, even if they try (which they better had, as one put it), for the Sophomores are coming out strong and determined on asserting and proving beyond a doubt their superiority over the inconsequential Frosh."

These statements show beyond any question that the Sophomores are going to make it interesting for the Freshmen this year. The spirit shown is one that should characterize George Washington.

As yet the Freshmen have not shown any tendency to cause the Sophs any trouble or in any way take out their seeming pomposity. As a matter of fact, the Sophs see to be beginning to realize that the defeats suffered in the past at the hands of the Freshies reflects against them personally and are determined to clean the slate. They say that the presumption which has been shown by the Fresh will no longer be tolerated by the mighty Sophs and that the class of '23 will show up and make all new men feel their insignificance.

It is expected that the Freshmen will arise and answer this challenge and begin to prepare for the contest in spite of what the Sophs say about their lack of spirit and organization. A hard struggle may well be expected.

This challenge issued for the first time by the Sophomores means a return to the old ideas that have been associated with George Washington but recently seemed to have been lost. Now that they have been found again, if the Freshmen can be made to absorb them all will look for a greater and stronger George Washington.

LEGAL CLUB ENTERTAINS.

The Women's Legal Club will entertain the Women's University Club and also girls from the Medical, Nurses and Pharmacy School Saturday, November 13. Each department will contribute a part to the occasion. The purpose is to give the girls a chance to become acquainted.

CHERRY TREE PUBLISHES 1921 G. W. U. CALENDAR

To help defray the expenses of publishing the Cherry Tree the staff has made arrangements to get out a G. W. U. Calendar, which will be sold to the students and faculty at the price of two dollars each. Subscription blanks may be obtained at The Hatchet office, where orders will be taken on receipt of a deposit of one dollar for each calendar ordered.

The Calendars will have black silk leather covers embossed with the University seal and letters, and the numerals 1921. The inside pages have pictures of the varsity teams. Don't miss this opportunity to get a souvenir of the University Centennial. As the supply is limited, only those who order now will be able to obtain copies. Start your Christmas shopping by ordering a G. W. U. Calendar!

FRATERNITIES WILL BOWL THIS SEASON

Interfraternity Association Definitely Decides To Continue Custom of Bowling League.

During the early part of the year the question of resuming the Interfraternity Bowling League was brought up by the interfraternity association. A committee was appointed with William L. Neill, Jr., as chairman, to look after the organization. It was definitely decided to continue the league this year, as the interfraternity bowling has been a precedent at George Washington University for a number of years.

The schedule has already been arranged and two of the matches played. The scores will be published each week in The Hatchet. The schedule is as follows:

Nov. 1—Theta Delta Chi vs. Kappa Sigma; Kappa Alpha vs. Sigma Chi.
Nov. 4—Sigma Alpha Epsilon vs. Sigma Phi Epsilon; Delta Tau Delta vs. Phi Sigma Kappa.
Nov. 8—Sigma Chi vs. Theta Delta Chi; Kappa Sigma vs. Kappa Alpha.
Nov. 11—Sigma Alpha Epsilon vs. Delta Tau Delta; Phi Sigma Kappa vs. Sigma Chi.
Nov. 15—Kappa Alpha vs. Theta Delta Chi; Sigma Nu vs. Sigma Phi Epsilon.
Nov. 18—Kappa Sigma vs. Sigma Chi; Phi Sigma Kappa vs. Sigma Alpha Epsilon.
Nov. 22—Sigma Nu vs. Kappa Sigma; Delta Tau Delta vs. Sigma Phi Epsilon.
Nov. 29—Sigma Chi vs. Theta Delta Chi; Phi Sigma Kappa vs. Kappa Alpha.
Dec. 2—Sigma Alpha Epsilon vs. Theta Delta Chi.
Dec. 6—Sigma Phi Epsilon vs. Kappa Sigma; Kappa Alpha vs. Delta Tau Delta.
Dec. 9—Sigma Alpha Epsilon vs. Sigma Chi; Phi Sigma Kappa vs. Sigma Phi Epsilon.
Dec. 13—Theta Delta Chi vs. Phi Sigma Kappa; Sigma Nu vs. Kappa Alpha.
Dec. 16—Sigma Phi Epsilon vs. Sigma Chi; Kappa Sigma vs. Delta Tau Delta.
Dec. 20—Theta Delta Chi vs. Delta Tau Delta; Sigma Nu vs. Sigma Alpha Epsilon.
Jan. 6—Sigma Alpha Epsilon vs. Kappa Alpha; Kappa Sigma vs. Phi Sigma Kappa.
Jan. 10—Delta Tau Delta vs. Sigma Chi; Sigma Phi Epsilon vs. Theta Delta Chi.
Jan. 15—Sigma Nu vs. Sigma Chi; Kappa Sigma vs. Sigma Alpha Epsilon.
Jan. 17—Sigma Nu vs. Phi Sigma Kappa; Sigma Phi Epsilon vs. Kappa Alpha.

FACULTY CLUB ELECT OFFICERS.

The newly formed Faculty Club is well under way. A constitution has already been drawn up by a committee headed by Prof. Doyle, and will be submitted for action at the next meeting, Friday, November 5. Permanent officers will be elected at this meeting, and organization will be completed.

Boost the Tax

The tax is not over. There is still something to be accomplished. Arts and Sciences must come across with their share. Why the largest department of the University should be so lacking in spirit and so unwilling to support a legitimate proposition like the Activity Tax is somewhat of a mystery. We cannot solve the mystery, but we are going to leave no stone unturned in efforts to make the tax a complete success. The field of operation is in the Department of Arts and Sciences. And it is there that the campaign must be carried on unceasingly until the number of signers can compare favorably with the number obtained in other departments. If G. W.'s largest department could produce a record like that of the Law or Medical schools in signing the tax, there could be athletics of every kind at the University. If you have not signed the tax, do it now.

Freshmen! Organize

The Sophomores mean business this year. They are determined to prevent a repetition of the overwhelming defeat suffered at the hands of the Freshmen last fall. They mean to win the tug of war. The first words of the newly elected Sophomore president in addressing the class were: "We must all pull together and give those Freshmen a ducking that they will remember!" This kind of determination can not be beaten, except by big odds. The Sophs do not believe the Frosh have either the spirit or the numbers to put over a winning fight. The fact is, however, that the Freshman class is the largest the University has ever had, and with the proper organization could prove a formidable opponent. Thus which side will get a ducking by being pulled through the stream of water from a fire hose will depend upon the amount of spirit and determination in the Freshman class. Little has been said in reference to the "scrap" by the Frosh. Perhaps they mean to do their crowing after the battle. They should show some spirit and put up the kind of fight that is expected from a George Washington man. Freshmen, organize and give the Sophs a fight.

Keep Cheering

The Buff and Blue eleven went down in a fair defeat Saturday in the game with Bethany, but the G. W. cheering section stuck with the team to the last. When Bethany made a touchdown the grand stand cheered for G. W. That is the kind of spirit we have fought for. Now we have it. Cheer your team in victory and defeat. Keep up the good work.

Squad Needs Men

The football squad needs more men. How can G. W. win games without an adequate supply of players from which to draw substitutes? It is almost impossible to play a game without some of the best players getting hurt. And unfortunately it is always the best players who do get hurt, because they get into the thick of the fight. G. W. has good players, but not enough of them. If the game with Bethany had lasted longer than it did there is a possibility that George Washington would not have had enough men to substitute. This situation is tough, but it is too apparent to be ignored. It can be overcome if the men in the University who can play football will drop the role of indifference and come out to the support of their team. The season is not over; the hardest part of the schedule is yet to come; and if the season is to be successfully terminated, the squad must have more men. Come out for the team. If you can't make the team this year, be ready to make it next season. Remember that G. W. has games with West Virginia Wesleyan, Navy, Fordham and Catholic University yet to be played. If you are a husky, get into a blue jersey and help carry the ball over the line.

CANNON MYSTERY TO BE EXPLAINED SOON

Details Concerning the German Gun To Be Presented G. W. Withheld Until Pres. Collier's Return.

There is a big gun coming to George Washington University. No, not a new member of the faculty nor a distinguished visitor from among the seats of the mighty; but a real, honest-to-goodness big gun. This gun was captured from the Germans and is being given to the University by the French government. Arrangements are being made for the presentation ceremonies, but the final details are being held up pending the return of the President of the University. The date of the presentation will probably be Armistice Day, November 11.

But, hush! This is a secret. This captured cannon was once a part of that terrible artillery system the thunders of which shook the earth, but now all reports that come from it must sift through a Maxim silencer. Never since that supergun bombarded Paris has one piece of German artillery been shrouded in so much mystery. Just what kind of a gun this is, exactly where it is coming from, and where George Washington is going to place it when they get it are still profound secrets. Mr. Elmer Kayser, Secretary of the University, when seen by a representative of The Hatchet last night,

stated that all details concerning both the gun itself and the ceremonies connected with its presentation are being withheld at the request of the donor. The camouflage is expected to be removed from this mystery machine by a statement to be given out by the Secretary of the University on November 10.

TELEPHONE EXPERT WILL TALK BEFORE ENGINEERS

Electrical Engineer From the Bureau of Standards Delivers Address Wed., Nov. 10.

Mr. Walter E. Brown, electrical engineer of the telephone section of the Bureau of Standards, will deliver a talk on the "Elements of Telephony" to the Engineering Society in the assembly hall at Lisner Hall on Wednesday, November 10, at 7:30 p. m. Mr. Brown was connected with the Bell Telephone Company for 15 years and is a master in his profession.

The usual custom of serving supper to the members before the regular meeting will be followed. Supper will be served at 7 o'clock and the meeting will begin at 7:30. Every student in the university is invited to attend the meeting and hear the talk.

The Engineering Society is an open organization and every one who is interested is urged to pay the dues and become a member.

PLAN DANCE.

The Architectural Club has made plans for the opening dance, which will be held at the Sigma Phi Epsilon House, 1829 Nineteenth Street Northwest, November 18. Everyone is invited.

COLUMBIAN SOPHS HOLD ELECTIONS

Officers Pledge Support of Tug of War; Expect Second-Year Men To Win Contest.

"Joe" Garnett, of football fame, was elected president of the Columbian College sophomores at their first class meeting last Friday night, October 29, in the auditorium of Lisner Hall. By acclamation the large sophomore class elected Blanche Doyle vice president, Frances De Grange secretary and Charles Ricketts treasurer.

The meeting was called to order and presided over by the retiring president of the freshman class of 1919-20, Ronald C. Cates. Russell I. Whyte and Harry Newman were present to represent the Student Council and acted as tellers after the voting. During the meeting there was some discussion as to whether the votes were to be signed or not. Speaking for the Student Council, Russell Whyte and Harry Newman stated that it was within the province of the council to declare the elections legal or illegal, and that the usual procedure was to have the votes signed. After some discussion Ronald Cates, acting chairman, declared that the votes must be signed in order to be counted.

Garnett is the second member of the football squad to be elected president of his class at the University this year. Kay, '21, Law, being the first. Playing end in the West Virginia-George Washington game, Garnett had his collarbone broken, but he was able to attend the meeting and to declare himself in favor of the "Class Scrap."

After the elections each officer made a short address. With no exception they all pledged their support to the tug of war and expressed the belief that the sophomore class would come out on top.

STARTLING STATISTICS

(Hereunder are some "startling statistics" in regard to fraternities, contributed by one of the "co-eds." It is not our intention to offend anyone in anything we say through this column. Hence, it is hoped this will be received by all in the spirit it is given—in fun.—Joke Editor.)

ENGLISH RHAPSODY.

Good morning, Prof., three times a week

We sit here, dozing, while you speak.
And though you try to fill our ears
With literature of other years,
We won't be stung.

For what care we what Shakespeare said,

What kind of life Ben Johnson led?
Why, don't you know those birds are dead
And we are young?

We make our history day by day,
We hearken not to ancient lay
But write our own, some sad, some gay,
And never cease.
And though we smile at Milton's jest,
Admit that Browning passed the test,
We ask that you will let us rest,
In tranquil peace. By D. V.

How Large is an Atom?

ATOMS are so infinitesimal that to be seen under the most powerful microscope one hundred million must be grouped. The atom used to be the smallest indivisible unit of matter. When the X-Rays and radium were discovered physicists found that they were dealing with smaller things than atoms—with particles they call "electrons."

Atoms are built up of electrons, just as the solar system is built up of sun and planets. Magnify the hydrogen atom, says Sir Oliver Lodge, to the size of a cathedral, and an electron, in comparison, will be no bigger than a bird-shot.

Not much substantial progress can be made in chemical and electrical industries unless the action of electrons is studied. For that reason the chemists and physicists in the Research Laboratories of the General Electric Company are as much concerned with the very constitution of matter as they are with the development of new inventions. They use the X-Ray tube as if it were a machine-gun; for by its means electrons are shot at targets in new ways so as to reveal more about the structure of matter.

As the result of such experiments, the X-Ray tube has been greatly improved and the vacuum tube, now so indispensable in radio communication, has been developed into a kind of trigger device for guiding electrons by radio waves.

Years may thus be spent in what seems to be merely a purely "theoretical" investigation. Yet nothing is so practical as a good theory. The whole structure of modern mechanical engineering is reared on Newton's laws of gravitation and motion—theories stated in the form of immutable propositions.

In the past the theories that resulted from purely scientific research usually came from the university laboratories, whereupon the industries applied them. The Research Laboratories of the General Electric Company conceive it as part of their task to explore the unknown in the same spirit, even though there may be no immediate commercial goal in view. Sooner or later the world profits by such research in pure science. Wireless communication, for example, was accomplished largely as the result of Herz's brilliant series of purely scientific experiments demonstrating the existence of wireless waves.

General Office Schenectady, N. Y.

COACH MORSE HOLDS MEETING OF MANAGERS

Brings Out Urgent Need of Cooperation of Leaders of All Men's Teams With Football Head.

Coach Bryan Morse held a meeting of all managers and assistant managers of athletic teams in his office Wednesday night, October 27. Ways and means of conducting the year's athletic activities were discussed, and as a result the University is promised a high degree of efficiency and cooperation in the management.

In a little talk to the managers, Coach Morse brought out the fact that the biggest proposition at the present time is football, and that this activity should take precedence over the rest

during its season. "Since this is the first time in four years that George Washington University has placed a team on the gridiron, we must all pull together to make it a success and thus assure it a permanent place among the major sports at the University," said Mr. Morse.

All the managers and assistant managers of the various teams declared their willingness to cooperate in every way with the manager of football and make the season a great success. Cooperation of this kind will be of the greatest help to the team and will make the work for each individual considerably lighter.

One of the points brought out at the meeting was the great difficulty that all the managers of the teams are having in getting men to try out for assistant manager positions. This difficulty is not applicable to football alone but to all the sports. Assistant manager positions are open in all the sports and can be had almost for the asking.

Stupid Steve Says:

Dear Stupe:

I am a freshman (woman) at school and since being here I have heard so many girls speaking of "hops" and the wonderful times they have had there. As I crave enjoyment, please tell me what "hops" are. Thank-you.

JEANNE.

Dear Jeanne: Hops are a perennial climbing herb, the amentaceous fruit of which is used in brewing. Note: Late dictionary says "WAS used" in brewing. They may also be described as a series of short jumps, etc., etc. They (hops) may be found in fraternity houses, Rauschers, the Willard and other notorious places where the male and female of the species gather for an evening's enjoyment. The term "hop" was supposed to have originated at Annapolis, but it is now thought it originated at Baltimore (see "Baltimore Hop"). If my definitions have not made everything perfectly clear to you, you may send me your picture and if favorably impressed I will go into this discussion more thoroughly, otherwise I will return the picture. You are welcome.

Prof.—Mr. Jones, can you tell me anything about the fall of the church? Jones—I ain't sure—earthquake, I s'pose.

Prof.—Now, Mr. Jones, that argument can hardly stand up.

Jones—Well, neither did the church.

Advice to Freshmen.

Cheer practise is held in the Library only on Tuesdays and Thursdays.

If some of the fraternities don't start to rush you, just drop around the rooms and tell the boys what a good fellow you are.

If there's one thing a prof. particularly likes it is to know that his students are interested in him. As soon as possible learn the first name of all your profs. and go up and give them the glad hand. A slap on the back will go a long ways.

If Glenn Anderson goes around with a "lumbago look" or a "misery in his joints" expression on his usually smiling countenance, don't be alarmed—he's simply been riding in his Lizzie—a more or less crowded bus. And you were rather "pressed for space," weren't you, Glenn?

Dear Stupe:

Do you think Dr. Platt is a good prof?

Ans.—Will let you know about the 1st of February.

Why is it that a guy will believe you when you tell him that 33,312 signers were posted on the bulletin board in 1909, but when you tell him it's freshly painted he has to feel the board?

Prof.—Can any one tell me what Nero played on his violin while Rome burned?

Chorus of Voices—"There's a Little Spark of Rome Still Burning, 'Nero, My God to Thee, 'There'll Be a Hot Time in the Old Town Tonight."

First Pledge—We had oyster dressing today.

Second Ditto—How do you know? Did you see the oysters?

First Pledge—Oh, no! they were dressing.

What Could Be Worse Than:

A fellow with gout and St. Vitus' dance at the same time?

A giraffe with a "sore throat"?

A centipede with corns?

A rhinoceros with the toothache?

A worm with tummy-ache?

A tobacco-chewing cat?

Notice! The answer is "Yes!"

She—How do you like the Russian literature?

He—Intoxicating!

She—Really?

He—Yes; so much "skey" in it.

Heard in the Rabbit Hole.

"B" Tait—I try not to listen to people down here when they're not addressing me. Don't you think that's good ethics?

Joe Houston—Yes, but it isn't good sense.

GOOD-BYE TO SUMMER.

By Monsieur X.
(With apologies to everybody.)

As we gather once more beneath these sacred walls and leafy boughs and gaze once again upon such a fine array of fresh and young and unsophisticated faces; as we pass from vacation joys to interesting or boring lectures, can we refrain from casting a longing thought toward the season past?

No more we hear the organ grinder's mournful lay; the "Cake Eatrix" has doffed her sox for sterner stuff; they say, because of "winter and rough weather." We miss the open street car, the sure harbinger of spring, the "water-million" man, 'n' everything. And highway robbers have turned from ice to coal as a more formidable weapon.

Oh! where are the two figures that silhouetted as one on the park bench? And the parks, won't we miss them?—the parks, the playground of little children, the recreation spot of more mature, the nestling place of love's young dream, the war-workers' parlor, the last refuge of the bum and outcast!

Don't you remember the canoes up the Potomac, how they used to wobble, wobble, wobble? And the Tidal Basin, the "Cake eaters'" paradise? And those naughty bathing suits intended by some ingenious manufacturer to reveal rather than conceal? And that night at the Great Falls of the old and historic Potomac when the full moon looked down in all its splendor on you and her, and it seemed that the world was built for two and that home was never like this, until suddenly you were rudely brought back to earth again by a —, wearing a star and carrying a stick?

Oh! why is a park cop? A public charge, a useless burden on society, a consummate nuisance, a parasite on civilization!

But, ah well do I remember the last rose of summer, how daintily, how prettily she was clad; so delicate, so chic, so naturally just pretty and sweet; Ah, well can I picture her today. But—

"I wished to my soul I had never been born.

Or I had died when I was young."

She was attached to the Woman's Police Bureau!

HAYNES ELECTED PRES. OF G. W. U. GLEE CLUB

Forty Men Turn Out at Meeting of Glee Club—Will Elect Two Directors.

About 40 students attended the meeting of the Men's Glee Club Thursday evening, October 28, in Lisner Hall, 2023 G Street Northwest.

At this meeting it was decided to have a president of the whole club. Preston Haynes was elected to this office. The plan was also adopted to have two directors under the president, one to have charge of the members contributing the vocal talent of the club, the other to be manager of the stringed instrument contingent. It was decided to defer election of these directors until a plan was devised to determine the ones best suited to fill the positions. There is plenty of talent to choose from, judging from the number of men attending the first meeting.

The second meeting of the club is to be on Friday evening, November 5, at 8 o'clock in the chapel. Election of the two directors, the vice president, secretary and treasurer, and the discussion of plans for the year's program will be the chief business of the meeting.

The club is glad to welcome all students who are interested. Don't "hide your light under a bushel." Come out to the meeting Friday night and help make the club a success.

GIRLS! BEWARE OF THIS.

"I don't know just how to tell you this, but ever since the first time I saw you, there has been a feeling I can't just exactly express. It is something different from anything I have ever felt before. I don't know just why I sometimes feel I want to kiss. Now please understand—I know it is hard. Perhaps you pity me, perhaps you are angry—I only hope that you can understand. But it must have been love at first sight. You seem so different, and it keeps growing in my heart until I had to tell you—and I feel that I can't keep it any longer—won't you try to understand?"

CAMPUS COMMENTS.

I have been told that a modest lawyer (student) on learning his opponents in moot court were to be women, remarked: "Gee, I don't know what those poor girls are going to do unless they hire a lawyer."

C. K. B. says Dean Ferson's "Horse Darby" must be on his hind legs and wants to know if I would help advertise a campaign to buy a new steed.

I heard that not a single G. W. U. medical student has ever failed in his BAR examination.

BLUE TEAM GAINS LEAD BY PLANING BIG CIRCUS

Circus to Produce Funds Necessary To Furnish Rest Rooms at Law School.

The Law School fund for furnishing the men's lounge room and the women's rest room is not growing as fast as it should, although the two teams which have been in competition with each other have worked unceasingly to secure the necessary amount. The Blue Team has stolen a march on the Buff Team and at the same time hit upon a plan that will produce the money. The Blue team has made plans for what should be a "howling success" of a circus.

Members of Sigma Chi, Kappa Sigma, Kappa Alpha, Sigma Phi Epsilon, Phi Sigma Kappa and the two women's legal fraternities have started practice for the acts they are going to give, and almost all of the other fraternities have volunteered their assistance.

The manager feels assured that the circus will be a success financially as well as socially. "The circus will afford an opportunity for all of George Washington to get together and have a jolly good time," are the words of Lois McDaris, captain of the Blue Team.

The circus will be on for two days, November 26 and 27, at the Law School.

MOVIES FOR ENGINEERS.

Why should an owner of a motor truck have to pay \$225 a year in one state, whereas an owner in another state has to pay only \$5 a year? Do you want to know why? Then come and see the moving picture entitled "Jumping Test," produced by the International Motor Company, makers of the Mack truck. The picture will be shown under the auspices of the Engineering Society in the assembly hall at 2023 G Street Northwest Friday, November 5, at 7:30 p. m.

DON'T take a fellow's pipe. Take some other possession. Because wrapped up in his pipe is a fellow's peace of mind, his relaxation, his contentment. This is more than true if it's a WDC Pipe, because then a good smoke is multiplied many times over. Our special seasoning process takes care of this by bringing out all the sweetness and mellowness of the genuine French briar. Just you go to any good dealer and select several good shapes. Put them in your rack. Smoke a cool one every time, and you'll be well on your way to pipe-happiness.

Among the Fraternities

KAPPA ALPHA.

Alpha Nu Chapter entertained 75 couples at a Hallowe'en dance at the chapter house last Saturday evening. Bob Young, Jimmy Weincoup, Brandon Thomas and Charlie Molster from Maryland University were visitors at the house last week.

Web Erbach is now in town for a few days' visit from Pittsburgh.

George Hearn is now enrolled in the Harvard Law School last year. Law School, having been a student at Court Barr is now connected with the H. K. Mulford Co., manufacturing chemists, in Philadelphia.

Word has been received from Frank Harwell, Jr., in Atlanta, sending remembrances to all his S. A. T. C. friends here.

Cliff Newell is now connected with the Southern Engineering Company, with headquarters at Charlotte, N. C. J. Vernon McPherson, now a Benedict, is living in Joplin, Mo.

ALPHA KAPPA KAPA.

Alpha Zeta chapter held initiations on October 18. The following men were initiated: Golden S. Rambo, Samuel K. Butler and Robert H. Bosworth.

A smoke was given at the University Club October 18.

The chapter held a very successful Hallowe'en dance at the Washington Club on October 30.

CHI OMEGA.

Chi Omega entertained its pledges and some freshmen at a buffet supper in the rooms Friday, October 29.

The local chapter gave a launch party Tuesday, October 26.

Rachel Mills, from Hollins, spent the week end visiting the Chi Omegas here.

SIGMA NU.

Delta Pi chapter is holding its annual memorial services this year at Grace Episcopal church next Sunday evening, November 7, to commemorate the deaths of the late Brothers William T. Conboys and Francis Marvin. The Rev. Meade B. MacBryde will officiate.

A very enjoyable Hallowe'en dance was held at the house on Saturday evening, October 30. Professor and Mrs. Bolwell attended. Prof. Bolwell is another Sig recently added to the G. W. U. faculty.

Brothers Lee Swem and Gus Harris have returned to Boston Tech.

The Sigma Nu chapter at the University of Maryland will be the guests of Delta Pi at an informal dance, Saturday evening, November 6, at their house on N Street.

Phi Sigma Kappa.

Lambda chapter held the first formal dance of the season at the chapter house on October 23.

Gilbert Morgan, Recorder of the Supreme Court, visited the chapter house last Sunday.

Forrest Curry has returned from California, where he has been successfully campaigning for his uncle in the recent elections for Congress.

Plans for a number of the men to attend the convocation at Chicago on November 11, 12, 13 have been made.

PHI ALPHA.

Phi Alpha celebrated Hallowe'en with a novelty mask dance at the chapter house 1872 California Street Northwest.

SIGMA KAPPA.

The active chapter entertained at a luncheon in honor of Miss Zorah Miller, of the University of Indiana.

A dance was held at the Sigma Nu fraternity house on Thursday evening, October 28. Several Sigma Kappas from out of town chapters attended.

Zeta Chapter held a theater party last week.

Due to illness Isabella Brown will be forced to discontinue her University work for a while.

Marian Edwards is studying at Johns Hopkins University.

Rebekah Sanborn has returned to

the University to work for her master degree.

PHI DELTA DELTA.

Phi Delta Delta has initiated two members since the opening of the fall term: Mary Covington and Lois Gorman. The rites were administered at the home of Bertha C. Pabst Saturday evening, October 30.

Phi Delta Delta announces its newest and youngest members as follows: Master Edgar Baker, born October 15, son of Mrs. Ida Carol Baker, '21, Law, and Miss Edith M. Archey, born October 22, daughter of Mrs. Edith Marshall Archey, '21, Law.

DELTA TAU DELTA.

The Hallowe'en dance of the chapter was held last Saturday night at the house.

Norman B. Ames, Gamma Eta, '16, is now connected with the Electrical Engineering Department of the University. Mr. Ames graduated from Mississippi Agricultural and Mechanical College in 1916, took graduate work at George Washington the following year, and completed his training at Massachusetts Tech.

SIGMA ALPHA EPSILON.

Washington chapter of Sigma Alpha Epsilon gave a Hallowe'en dance at the chapter house Saturday, October 30. Mrs. Earnest chaperoned.

PHI MU.

Phi Mu gave a Hallowe'en dance, the first big dance of the season, in the Oak Room of the Raleigh Saturday night, October 30. Prof. and Mrs. Bolwell and Mr. and Mrs. Bryan Morse acted as chaperones. There were about 25 couples present.

Eleanor Toronto, an initiate of last year, has entered Columbia University this fall.

Pauline Boucher has returned to Salt Lake City, where she expects to enter the University of Utah.

THETA DELTA CHI.

Theta Delta Chi held a Hallowe'en dance at the charge house October 29. The house was decorated with autumn leaves and other Hallowe'en decorations and 30 couples were in attendance. Chaperones were Mr. and Mrs. Frederick N. Towers, Mr. and Mrs. Marvin J. Reynolds, Dr. and Mrs. H. Janey Nichols, Mr. and Mrs. Marshall McGruder, Mr. and Mrs. Monroe Warren, Mr. and Mrs. Harry I. Clarkson, Col. and Mrs. George Vidmer and Dean and Mrs. Wilber were the honor guests.

Chi Deuteron has received word from Nu Deuteron at Lehigh University that their new house has recently been completed. Many of the Washington Theta Delta will attend the official house warming.

Chauncey Winstead, '16, is now located in Wilmington, Del.

Russell B. Lake, Law, '22, has returned from a hunting trip in Canada.

A handsome silver loving cup has been presented to Chi Deuteron by R. L. Neuhauser, '08, and A. N. Miller, '15, for that member of the freshman class in the fraternity making the highest grades for the school year. Last year's cup was awarded to Booth R. Pullman, '23, who is now at the University of Virginia.

Janney Nichols, '20, is now the chief chemist for the International Petroleum Co., Tampico, Mexico.

J. Herbert Brackett, '15, who is now the chief chemist for the General Chemical Co., at Newell, Pa., is stopping at the house for two weeks.

Paul Pew, Chi Deuteron, '20, is going to the University of Michigan this year.

GLEE CLUB TO MEET.

The next meeting of the Men's Glee Club will be Friday night, November 5, at 8 o'clock, in the Arts and Science Building. Everybody who can sing, play a stringed instrument or wind instrument come out. If the Glee Club is a success, some trips are in view which will make it worth while for all. To be a success, the Glee Club needs your cooperation. Come out.

Golfers want "just enough Turkish." At Pinehurst, for example, Fatima holds each season's record for the largest sales; and during both the Metropolitan and National Amateur Championships last season, Fatima outsold all other cigarettes.

Why are some men still "cigarette shopping"?

IT must be because they have not found the right cigarette.

The right cigarette should not contain too much Turkish, for "too much" makes a cigarette over-rich, even "heavy."

Nor should it contain too little Turkish for "too little" means lack of taste.

The right cigarette should have just enough Turkish. It should please the taste without tiring it.

Scores of sales-records, like the above, seem to prove that the only cigarette which does have just enough Turkish is Fatima.

Fatima contains more Turkish than any other Turkish Blend cigarette, yet it is noticeably free from the over-richness of straight, all-Turkish cigarettes.

Most smokers quit "shopping" when they find Fatima.
